GTDU - U-BOLT GROUNDING CLAMP (1 CONDUCTOR)

GTDU 1/4" IPS 8-4

Description

Purpose: Connection between ground rod to cable or IPS tube-cable. Suitable for COPPERSTEEL or copper cables.

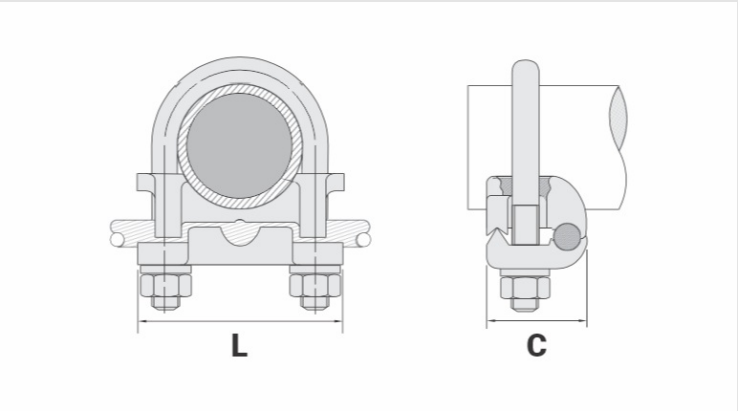

Characteristics: Tightening connection. High electrical conductivity and corrosion resistant. It allows you to connect a cable, at 90º in relation to the rod / IPS tube.

Application: Grounding systems in general (power distribution systems, grounding grids, residential, building and industrial grounding, grounding in telecommunication networks, grounding in substations).

Material: Copper alloy clamp, fittings in copper alloy or electrolytic zinc plated steel.

Application Tool: Spanner set or open-ended wrench.

Datasheet

Conductor	
AWG/MCM	8 - 4
mm²	10 - 25
Ground Rod Nominal Diameter (inches)	1/2"
IPS Tube	1/4"
