CCA - WEDGE TYPE CONNECTOR FOR GROUNDING

CCA-12-35

Description

Purpose: Connection between ground rod to cable. Suitable for COPPERSTEELor copper cables.

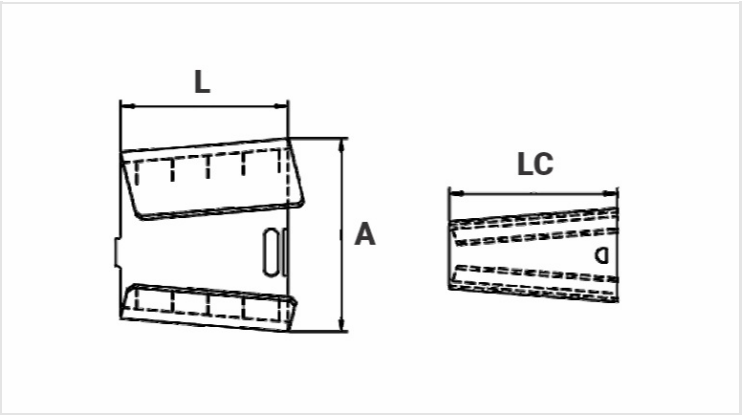

Characteristics: Spring system connection (permanent tightening). High resistance to corrosion. Easy application. Supplied with antioxide compound INTELTROX-Cu.

Application: Grounding systems in general (power distribution systems, grounding grids, residential, building and industrial grounding), grounding in telecommunication networks).

Material: Copper Alloy.

Finish: Tin plated Application Tool: Water pump pliers.
