SACC - COPPER "C" GROUNDING COMPRESSION CONNECTORS

SACC-120-70

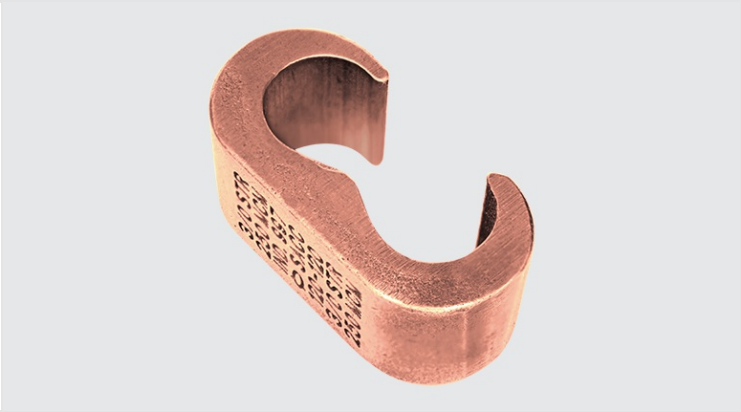

Description

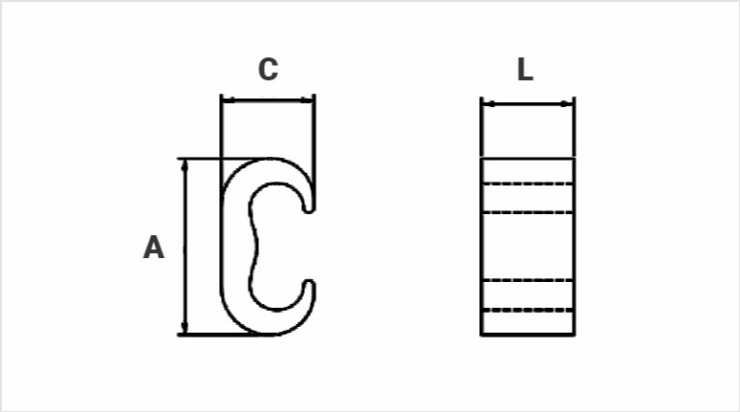

Purpose: Cable to cable splice or tap connector. Suitable for COPPERSTEEL (Copper Clad Steel) and copper cables.

Characteristics: Compression connection. High resistance to corrosion. It can be buried directly into the ground or concrete.

Application: Grounding systems in general (power distribution systems, grounding grids, residential, building and industrial grounding), grounding in telecommunication networks, grounding in substations).

Material: Copper alloy, supplied with anti-oxidant compound INTELTROX-Cu.
