AEB - CAST ALUMINUM CONNECTOR WITH STIRRUP

AEB-38-1

Description

Purpose: Connection with CA, CAA aluminum cables. Enables ing of a hotline clamp.

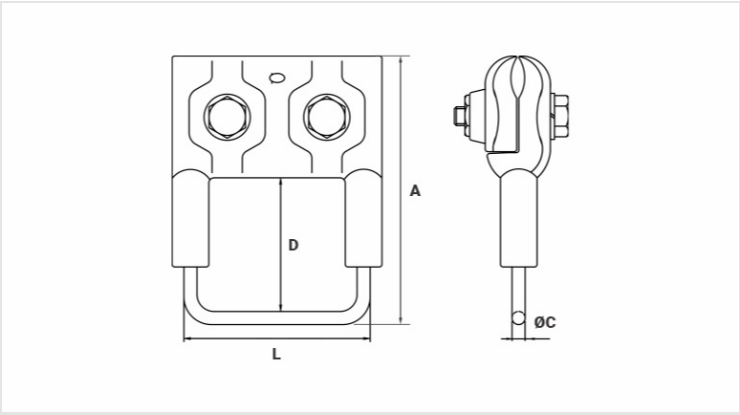

Characteristics: Tightening connection. High electrical conductivity and corrosion resistance.

Application: Power distribution lines.

Material: Cast aluminum alloy body and stirrup in electrolytic copper.

Application Tool: Star or open ended wrench. Finishing (Stirrup): Tin plated.

Datasheet

Conductors	
Run (AWG/MCM)	10 - 2
Type of Conductor	CA
Stirrup (AWG)	4
Dimensions (mm)	
L	63,0
A	150,0
Ø C	5,2
D	100,0
Screw	1x M10
Package	
Qty. / Package	20
Unit Weight (g)	220,00
