AEB - CAST ALUMINUM CONNECTOR WITH STIRRUP

AEB-44-2

Description

Purpose: Connection with CA, CAA aluminum cables. Enables ing of a hotline clamp.

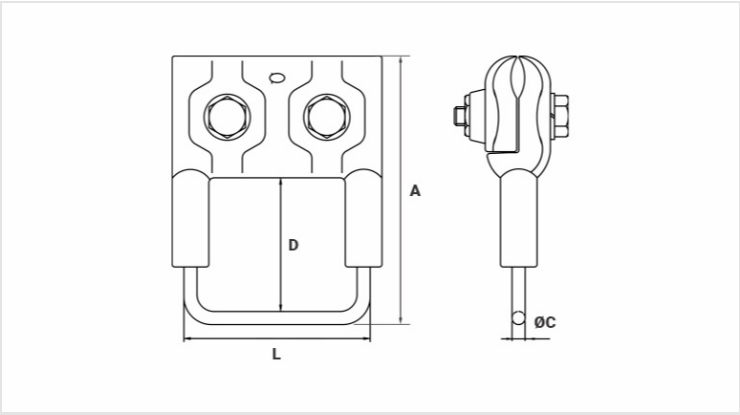

Characteristics: Tightening connection. High electrical conductivity and corrosion resistance.

Application: Power distribution lines.

Material: Cast aluminum alloy body and stirrup in electrolytic copper.

Application Tool: Star or open ended wrench. Finishing (Stirrup): Tin plated.

Datasheet

Conductors	
Run (AWG/MCM)	4 - 1/0
Type of Conductor	CA / CAA
Stirrup (AWG)	1/0
Dimensions (mm)	
L	75,5
A	130,0
Ø C	8,0
D	65,0
Screw	2x M10
Package	
Qty. / Package	15
Unit Weight (g)	358,00
