

## CDPRP\* - PIERCING TAP CONNECTOR FOR PROTECTED NETWORK

CDPRP-185-185-15

## **Description**

**Purpose:** Covered cable tap (protected network)

**Characteristics:** Connection by piercing (does not need to strip or rebuild the insulation of the conductor). Suitable for covered aluminum cables. It has a shear head nut to guarantee a perfect application and elastomeric rubbers, making it watertight.

**Application:** Protected overhead electricity distribution networks (medium voltage)

Material: Polymer body resistant to weathering and UV rays. Main contact and tap in tinned copper.

**Application tool:** 17 mm socket wrench.

\*Available on request

## **Datasheet**

| Conductors                         |          |
|------------------------------------|----------|
| Run (mm²)                          | 50 - 185 |
| Tap (mm²)                          | 50 - 185 |
| Electrical Tension (kV)            | 15       |
| Thickness of Protective Layer (mm) | 3        |
| Screw Quantity                     | 2        |
| Fuse Nut (mm)                      | 17       |
| Dimensions (mm)                    |          |
| L                                  | -        |
| A                                  | -        |
