

## **IH - GROUND ROD**

IH-258

## **Description**

**Characteristics:** Straight, consisting of a solid carbon steel core, coated with a uniform layer of electrolytic copper (minimum 254 microns = 10mils) through an electroplating process, which ensures the inseparable and homogeneous union of the metals.

**Application:** Grounding systems in general (power generation, transmission and distribution systems), grounding grids, residential, building and industrial grounding, substations grounding and telecommunication networks.

**Material:** Carbon steel core (SAE 1010/1020) with electrolytic copper coating of minimum purity of 99.9% without a trace of zinc.

## **Datasheet**

| Dimensions (mm)           |        |
|---------------------------|--------|
| Nominal Diameter (inches) | 5/8"   |
| Effective Diameter (mm)   | 14,30  |
| Lenght                    |        |
| Feet                      | 2      |
| mm                        | 609,0  |
| Package                   |        |
| Qty. / Package            | 10     |
| Unit Weight (g)           | 781,00 |
